All You Want to Know About Mathematics... in Clear, USABLE FORM!

Do you wish you could use arithmetic, algebra, geometry and trigonometry to save time and money... to win job promotions and good grades? Do you wish you could handle a wide range of solve problems in business math quickly and easily? Do you and your family want to **KNOW** more about MATHEMATICS because it is the basic cornerstone of modern civilization?

If you answer "yes," this handsome volume is what you're looking for. **MATHEMATICS MADE SIMPLE** can be worth hundreds of dollars to you this year alone. But it's yours **FREE** if you act at once. The fascinating contents include:

- **"HIGH SPEED" ARITHMETIC** 3 ways to add faster! How to figure profit, loss, interest, percentage, taxes. Short cuts with decimals. Quick multiplication and division methods. Fractions, square roots, etc.
- **GEOMETRY AND TRIGONOMETRY** Axioms and theorems made simple. How to

figure angles, volumes, areas. What surveys do. Longitude and latitude. Sines, cosines, tangents. How logarithms simplify multiplicative. Measuring very large or distant objects. Tables of logs and angle functions.

• **ALGEBRA:** Principles of Algebra. How equations help solve problems. Arithmetic mean. Ratio and proportion. Positive and negative numbers. How to use a slide rule. Square and cube roots. Simultaneous equations, etc.

• **OTHER PRACTICAL PROBLEMS:** Constructing graphs, charts, diagrams, etc. Weights and measures, English money, Board feet. Solve "home handyman" problems. Budget, credit, motor car care, Canteen, etc.

PLUS hundreds of other topics. There's no confusing language, no complicated diagrams and charts. As a result, you can understand the **MATHEMATICS** method. To introduce this wonderful new plan, we offer this big book **FREE**. Simply mail coupon now!

HERE'S YOUR chance to discover the famous proven MADE SIMPLE method and get this multi-based volume, MATHEMATICS MADE SIMPLE absolutely free!

This big handsome book is part of a new, practical self-teaching program that offers you and your family a chance to master important up-to-date subjects we use in business, conversation and reading. Your children will find the program vital and fun in doing their homework and giving busy parents a chance to learn more about their children. **WRITING, SPEAKING, PSYCHOLOGY, LAW, LITERATURE, HISTORY, MATHEMATICS, BOOKKEEPING, WORD POWER**—these are only some of the useful, profitable subjects necessary for advancement on the job and in society... the **Made Simple** self-teaching method makes a part of you... in as little as 15 minutes a day!

Here's How These New Richly-Bound Simple Volumes Use Everyday Situations to Teach Science, Business, Cultural and School Subjects—Assure Complete Mastery for Faster Job Advancement, Better School Grades... Richer, Fuller Living—in 15 Minutes a Day!

You Learn When You Want... Like Having College Instructors in Your Own Home... For Daily Pleasure a Day!

The **MATHEMATICS** method teaches you easily and naturally—in a practical, useful manner and suit by memorizing laws and rules. Instead of the confused explanations that clutter up most books, **MATHEMATICS** uses clear, everyday language that everybody can understand. The "handpicked" expert authors include lawyers, C.P.A.'s, Associate and Full Professors of leading colleges, instructors from Princeton, De Paul, City College of New York, Rutgers and many others.

Best of all, you never have to buy any materials or extra books or tables to round out your course. Each **MATHEMATICS** volume is complete in itself. They start from the beginning, assume no previous knowledge of the material and lead you quickly and carefully through every phase of the subject.

Complex Explanations, Simple Illustrations Make Every Point Clear—No Frivolous Knowledge of the Subject Required

Let's look at one of the books and see how the **MATHEMATICS** method makes every point clearly clear by using simple, everyday illustrations and examples.

In **PHYSICS** **MATHEMATICS**, in the section on air pressure, you see this experiment which you can do right now in your own home. "Hold one edge of a piece of letter paper against your chin just below your lower lip, with the paper hanging over and down. If you now blow above the paper, it will rise to a horizontal position as if pulled upward in the air stream." By using only a piece of paper, you have performed an experiment that demonstrates the important principles involved in

Riches and surroundings.

It's as easy as that! In other books, you would first "plough through" Bernoulli's Law, Boyle's Law and other technical terms. Here, however, you read a simple explanation, do an interesting experiment and then learn the required technical terms. As a result they will mean something to you. That's why the **MATHEMATICS** method has worked for thousands of people who needed more help than you may think you do. You would expect to pay three to four dollars apiece for these 8 1/2 x 11 1/2 inch beautifully bound, richly stamped library volumes. But if you take advantage of this amazing **FREE** offer, you pay only \$1.98 per volume. You can stop whenever you want. Meanwhile you are building a permanent reference set for your home—a handsome educational "tool" the whole family will use again and again.

See for yourself without risk. Send for your **FREE** book, **MATHEMATICS MADE SIMPLE**... today!

HOW READY? ENGLISH MADE SIMPLE With your **FREE** book, you will receive another handsome method in **English** volume, **ENGLISH MADE SIMPLE**. For **FREE** examination. You'll find it a valuable practical "course" shows you how to write with more confidence, prepare English. You learn how to substitute sentences correctly; how to build a better vocabulary; how to write effective personal and business letters. Here's a treasure you want. A piece of possible progress to good English usage!

LYNN

BEAUTIFUL blondes are always news, but take a blonde like Pat Sheehan and link her with a magical name like Bing Crosby, and you've really got an item. Which is exactly why Pat and Der Bingle were lately in the gossip columns. The pair met in Las Vegas, where Pat is one of the famous shawgirls.

THIS fabulous dark-haired lovely is New York model, Lynn Carter, and for lots more of Lynn, feast your eyes on pages 34-43.

That provocative look with the provocative pose is Suzanne's stock-in-trade as a commercial fotog's model.

The Lake,
Lake Show

Suzanne is just 21 years old, is a tallish 5'6", measures neat 35-22-35.

HERE are pictures you'll never get to see on any televisish screen, not without them scorching your picture tube, at least. Suzanne Lake, unfortunately, will never get to replace Wyatt Earp; on the other hand, you'll never see the famous frontier sheriff in PEEP SHOW, either.

Suzanne, we'll have you know, designed and made these tantalizing bikini suits herself, a feat which is more profession than hobby considering that this Lady of the Lake is a photographer's model. A native New Yorker, she lives just a stone's throw from the Madison Avenue advertising agencies that employ her regularly to brighten up their national magazine ads. She has an eye to the future — as well as a figure of the future; Suzanne is studying for the legitimate theatre. In her few moments of leisure, she likes to cook exotic foreign dishes, and she prefers tall, slim, intellectual type guys who'll remember to compliment her culinary art. Imagine! All this — and the dish can cook itself.

Shirley's eyes are actually special — she does eye makeup commercials on television.

It's the Eyes That Get The Guys

CONSIDERING the other considerable attractions of Hollywood's Shirley Kilpatrick, it might seem strange that she'd espouse the philosophy that a gal's eyes get the guys. But that's just what Shirley says, and she's got a pair of blue eyes that go a long way toward making a convincing argument. Only who's arguing?

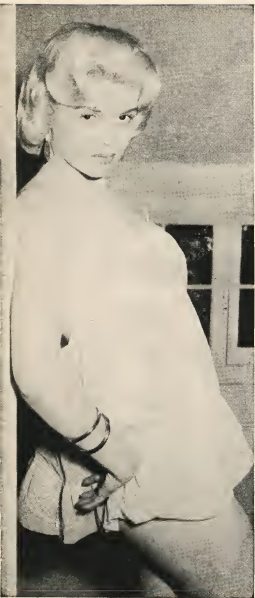

We can tell you that she's a West Coast model and starlet.

Who is
this
Mystery
Blonde?

She's well known in Las Vegas, too, for a very special reason. Turn the page for her name, and play a game.

TO END the guessing right off, we'll tell you that this exciting blonde is Sandra Giles. Did you guess it? Well, here are some more guessing games for you — and this time if you hit the right answer you may win a prize. Now that you know she's Sandra Giles, do you remember what she's best known for? Here's a hint: In the early summer of 1957 this blonde beauty was big news. In fact, she hit practically every major newspaper in the country as the subject of a very interesting story which ran for several days in many papers.

Do you recollect what this story was about? If you remember, write us here at PEEP SHOW, and the first 10 right answers will receive an autographed picture of Sandra as a prize. No more hints, now, but it might not be a bad idea to check the library near you for back issues of the paper — that is, if you're interested in owning an autographed photo of Sandra. Hurry up — remember, only the first 10 right answers win.

She looks like Jayne Mansfield at times, but the story has nothing to do with her resemblance to famous Jayne.

Her pictures were in the papers, too, which should make it easier to find. Do you remember — then start writing!

VEIL of MYSTERY

SANDRA'S barely hidden charms, so enticingly cloaked here, have been the subject of many a glomar photog's camera. But never has a cameraman caught Sandra more perfectly than famous Keith Bernard captured her here for PEEP SHOW. Sandra's in Hollywood at the moment in the midst of shooting for a movie.

THE END

*The
Red-Haired
Red-Hot
Rebel*

She resembles Rita Hayworth, but her
name — remember — is Scarlett Rebel.

From Atlantic to Pacific, she's known
as one of the most exotic dancers.

Scarlett's nature girl look here, isn't strictly for posing; she really loves all kinds of pets.

Just as you'd guess, Scarlett has fire-laden, jade green eyes to go with her flame-red hair.

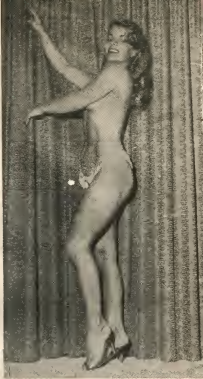

A STUDY in SCARLETT

THAT latest cloud of fire and smoke rising from the desert around Las Vegas had nothing to do with the atom bomb. This explosion was strictly from an anatomic bomb named Scarlett Rebel, who was tearing down the house at the Hotel Cortez in Las Vegas. Scarlett is her proper name all right — with her flaming red hair and her red-hot exotic dance routines.

She's only five feet tall, but the atom bomb isn't very big either, in respect to the power it carries. And this little bundle of super-high explosive has been ripping records to shreds lately, and melting audiences to a limp mass with the wrigglingest, sizzlingest, wildest bit of torso tossing this side of an ancient Bacchanalian rite. Scarlett's competitors even marvel at her 'torrid loveliness, only they say, "Isn't she cute?" Scarlett cute? Like a package of nitro-glycerine she's cute.

You feel like giving out
with a rebel yell when
Scarlett turns on the heat!

Scarlett hopes someday soon to leave the nightclub circuit and go into TV and the movies. She sure has the right equipment.

SO NICE by the FIRE

A BEAUTIFUL girl, a roaring fire, and a bear rug — could a guy ask for anything more? And yet, for all the glamor, Scarlett's a regular gal; she likes nothing better than to lounge around in a shirt and a pair of levis. Her only hobby right now is Peanuts, a monkey she bought when it was only five weeks old. The lucky dog, er, monkey that is, travels around with Scarlett, wherever she goes on tour.

No Lament for Lamont

THERE are no wells to go with the tales about Florida's fabulous Denise Lamont. This gal has been nothing but a successful, top ranking model since she first started posing not long ago. The dark haired beauty with the 40-25-37 figure is known rightfully as Florida's biggest bosom.

DENISE started her modelling career modeling swim suits at Miami Beach hotel poolside fashion shows. But there she was discovered by one of Florida's most famous fashion and glamor photographers, Bill Coldwell. Now, with her terrific figure appearing in leading magazines, she's been getting offers from Hollywood.

Sultry, sad, moody, sensuous, sexy, coy, naive, sophisticated — she sure does have them all.

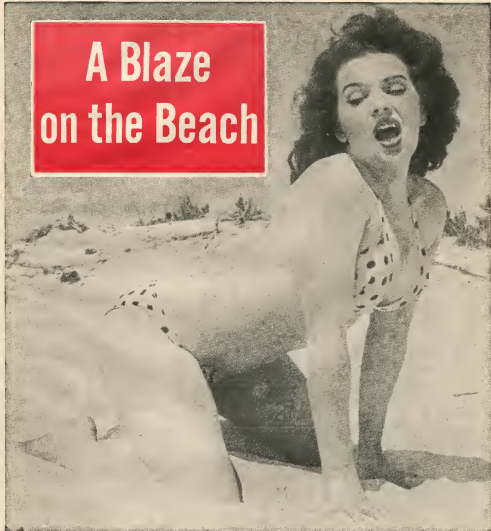

When a Maid's in a Mood

IT'S TIME to snap the picture when the maid's in a mood — ask any good photographer. One of the toughest things to teach a model is facial expression, and no matter how good a model may be in the face and figure department, if she can't register emotion she won't be photogenic. Which is why photos are so crazy about Dolly Reed, a model who gets in the mood you need for the picture you have to have. As for the rest, well — look!

This one's called: **DANGER**

A Blaze on the Beach

Here's a sight for shore
eyes — a stripper on the
beach. Ship-Shape ahoy!

WHAT IS so rare as a day in June? We'll tell you what. It's a stripper on the beach. Not that strippers as a class are allergic to sand, sunlight and salt water, but the fact is that working until the wee hours of the morning, they seldom get up until late in the afternoon, too late for good beachgoing. But several years back PEEP SHOW gave Blaze Starr her first big magazine story, one which gave her a big boost on the road to the fame she now has. In return, Blaze has always given us exclusive chances at pictures of her. Recently, she agreed to a morning at New York's Jones Beach with our photographer Paul Wagner, for these exclusive, terrific pictures.

Blaze looks as good in a bikini as she does in a G-string. Bet the water was boiling after she swam around for a few minutes.

Beachcomber's Treat

BEACHCOMBING wouldn't be a bad deal if you stood half a chance of finding a gorgeous gal like Blaze Star romping on the sands in the morning. But this is the first, and probably the last time you'll see Blaze on the beach. Burlesk's top dancer told PEEP SHOW after her exclusive photography session that she couldn't take a chance on a sunburn. Because when she's on the stage peeling, she wants it to be clothes she's peeling, not skin.

Blaze said she's shortly starting on another one of her famous coast-to-coast tours, so get out the asbestos curtain, boys. When Blaze goes to work, she could sizzle the feathers off a cigar store Indian!

Blaze used the time to good advantage; she practiced some of her routines while on the beach.

THE END

Donalda Jordon

Boy,
What a
Girl!

The doctor said it
would be a boy, but
the stork brought her!

MAYBE the stork made the mistake, or maybe it was the doctor, but what a lovely error! At any rate the Jordans were expecting a boy, and were going to name him Donald. When it turned out to be a girl, they simply called her — Donald!

STARRY-EYED LOOK

DONALDA JORDAN grew up into a red-haired beauty with a figure that sure makes us glad she wasn't a boy! She's currently one of the film calany's promising young starlets.

THE END

How a Pearl Gets Culture

ARLENE STEVENS is one of the best-read of America's exotic dancers. The vivacious blonde, famous for her 'Birth of a Pearl' strip act, reads every spare moment she can get. Her favorite reading is poetry, especially early English stuff like Chaucer.

The Girl
with that
EXTRA
Something

Lynn likes worldly guys who have a sense of humor, can play tennis.

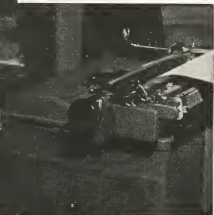

LYNN CARTER'S a lotta girl who's done lots of little things in the movies. Lynn's a New York model — one of the city's best, by the way — who is signed often by Hollywood directors when they come to the Big Town to make a movie on location. There's just something about Lynn that spells New York when you look at her; glamor, sophistication, excitement, and such, and she's perfect for those bit, but special, roles directors always require in a movie that takes place in a big city.

For example, Lynn has had bit parts in "Sweet Smell of Success" and "A Face in the Crowd" recently — perhaps you even remember seeing her in those pictures. One thing is sure, when you get through staring at these specially shot pictures PEEP SHOW had made of Lynn, you won't be able to get her out of your mind for a long time. She has the face and figure that a guy's dreams are made of.

Her favorite hobby, after tennis, is reading; here she's finishing Gypsy Rose Lee's memoirs.

Lynn's dark-haired
beauty is famous in
showbiz and N.Y.
modeling circles

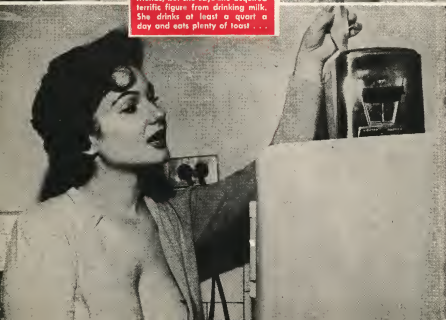

Someday Lynn hopes to do bigger and better things in acting. She'd like to pattern herself after her favorites, Ida Lupino and Julie Harris.

Lynn likes to mix drinks for her friends, but she says she acquired terrific figure from drinking milk. She drinks at least a quart a day and eats plenty of toast . . .

Come home with Lynn
for an informal visit
with a sultry siren!

She does lots of lingerie and fashion modeling in N. Y., a profession for which she's absolutely sensationally endowed.

That look has toasted more
than one movie villain. Is
it starting to sizzle you?

She can play 'dynamite' roles
with ease—she IS dynamite!

Lynn has dark auburn hair, brown eyes, and a 37-23-37 prize winning figure. She's won many beauty titles.

Gun moll Lynn is just practicing. Among her modeling jobs have been covers for pocket-book mysteries.

**'California, Here I
Come' is Lynn's theme
song for the future**

LYNN doesn't want to be just another 'Face in the Crowd,' and the 'Sweet Smell of Success' hasn't gone to her pretty head. She has bigger and better things in mind. Recently she's appeared on network television shows, such as Steve Allen's, and while studying diction and dramatics, she's keeping one eye on Hollywood. Several offers for starlet's contracts have come her way, but Lynn is waiting till she can go out to filmland as an accomplished actress, rather than get lost in the starlet shuffle.

PICTURE OF A DREAM

THE END

Lisa's the athletic type. She played with the girls' softball team while in L.A. high school.

BULLS-EYE BLONDE

BEWARE of the temper o' the Irish at any time, but especially take care not to get calleen Lisa O'Hara angry at you. Lisa, you see, has a rather peculiar hobby for such a beautiful girl; she likes pistols and has ambitions to be a crack marksman someday. As a matter of fact, if Lisa didn't look as disturbingly feminine as she does here, one might be tempted to say she was tomboyish. Her next favorite hobby is baseball, and she'd rather spend an afternoon watching a game than even shopping.

As you've probably surmised, Lisa is a model. She hails from Los Angeles, is 21 years old, has brown eyes with long blonde hair. Her measurements are a bulging 37-24-36, which hits the target perfectly in the figure department.

ENCORE in the WOODS

IT'S BLAZE STARR again, and aren't we all lucky! On the way back from the beach Blaze and the photag passed through the woods, and thought you'd like another picture.

This isn't Little Red Riding Hood, but Blaze Starr sure brings out the wulf in a guy, doesn't she?

*She's All
Shook Up!*

This brown-eyed platinum blonde has a 37½-23-36 shape that has burlesk patrons panting for more. She's a real bombshell.

FAYE HARLOW is both on the giving and receiving end of plenty of shake, rattle, and roll. Faye is one of the newer and rarer attractions at Baltimore's famed Twa O'Clock Club, and believe PEEP SHOW, when Faye shakes and ralls, even the drummer gets rattled. On the other hand, Faye is a solid rack 'n' roll fan herself, and Elvis Presley to her is simply the swingin'est.

Faye really indulges her likes all the way, too. Her favorite hobbies are motorcycle riding and listening to Elvis Presley records. And for a guy to get the glad eye from Faye, he has to be tall, have a ducktail haircut, sideburns, wear sport shirts, like motorcycle riding, and Elvis records. Man, we're all shook up!

Faye's vote for movie of the year goes to 'Loving You,' starring — you guess who it is. Loving you is what Faye's fans are saying.

Faye's only been in burlesk since August of 1956, but already she has been getting top billing in many shows.

Faye comes from Logan, West Virginia, of German-Indian descent. Her strip routines were taught by Blaze Starr.

Magic Wanda

(Wanda Barbour)

Dane is a true blue-eyed blonde, has a 35-23-35 figure. Photos and fans are sorry she's gone out of modeling.

DISAPPEARING DANE

GET 'EM while they're hot, fellas, and we don't mean hot dogs. We're referring to these sensational pictures of Dore Arden, of which there just ain't going to be much more. Dane, until recently one of the top models on the West Coast, married singer Guy Mitchell not long ago, and Guy no longer permits cheesecake photos to be taken of Dane.

Dane, incidentally, is an odd name for her, since she's really Swedish. She came to New York several years ago from Sweden, modeled originally under the name Elso Sorenson.

Where There's Smoke . . .

. . . there's fire, the saying goes, and Jeannie Robbins is proving it right here. There's plenty of fire behind those smoke rings; Jeannie is recognized as one of Florida's sizzlingest models.

FRENCH ACCENT

A BIT of that titillating French-Canadian touch is provided by red-haired Simone Auger, who came to New York recently and set the modeling world on its ear. After a whirlwind sweep of the town's top photographers, she headed back for Montreal, where she is now.

WILL YOU SPEND \$2 TO SAVE YOUR HAIR?

How many hard-earned dollars have you spent to save your hair? How many hair tonics, gadgets, restorers, electrical devices, have you tried in the last few years — with no success? How many times after an unsuccessful hair-growing attempt have you sworn not to spend another cent on another hair treatment?

Yet, you buy the next product that comes on the market with hair-growing claims.

Stand in front of a mirror, take a long hard look at the top of your head. What have you to show for the money you spent on hair restorers? Do you have as much hair as one year ago? Do you see any signs of new hair, or new hair growth? Why the failure?

CAN YOU GROW HAIR?

Doctors who have spent a lifetime studying hair and hair growth have concluded that nothing now known can grow hair on a bald head. So, if you are bald, prepare to spend the rest of your life that way. Accept it philosophically and quit spending hard-earned dollars on hair growers.

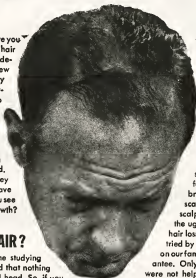

If you can't grow hair — what can you do? Can you stop excessive hair loss? Can you save the hair you still have? Can you increase the life expectancy of your hair? Probably. Please read every word in the rest of this statement carefully, since it may mean the difference to you between saving your hair and losing the rest of it to eventual BALDNESS.

HOW TO SAVE YOUR HAIR

Itchy scalp, hair loss, dandruff, very dry or oily scalp, are symptoms of the scalp disease called seborrhea. These scalp symptoms are often warnings of approaching baldness. Not every case of seborrhea results in baldness, but doctors now know that men and women who have this scalp disease usually lose their hair.

Seborrhea is believed caused by three parasitic germ organisms (staphylococcus albus, pityrosporum ovale, microbacillus). These germs first infect the sebaceous glands and later spread to the hair follicles. The hair follicles atrophy, no longer can produce new hairs. The result is "thinning" hair and baldness.

Many men and women suffer needless worry and heartache as they peer into the mirror at their retreating hairlines. Worse, they suffer needless loss of hair because today seborrhea can be controlled — quickly and effectively — by treating

your scalp with the amazing scalp medicine called Ward's Formula.

DOUBLE MONEY BACK GUARANTEE

In seconds, Ward's Formula kills the three parasitic germ organisms retarding normal hair growth. This swift germicidal action has been proven in scientific tests by a world-famous testing laboratory (copy of laboratory report sent on request). Ward's removes infectious dandruff, stops scalp itch, brings hair-nourishing blood to the scalp, tends to normalize very dry or oily scalp. In brief Ward's Formula corrects the ugly symptoms of seborrhea, stops the hair loss it causes. Ward's Formula has been tried by more than 350,000 men and women on our famous Double-Your-Money-Back Guarantee. Only 1.9% of these men and women were not helped by Ward's and asked for their double refund. This is truly an amazing performance. Why not join the men and women who have successfully ended their troubles? Treat your scalp with Ward's Formula. Try it at our risk. In only 10 days you must see and feel the marked improvement in your scalp and hair. Your dandruff must be gone. Your scalp itch must stop. Your hair must look thicker, more attractive, and alive. Your excessive hair loss must stop. You must be completely satisfied — in only 10 days — with the improved condition of your scalp and hair, or simply return the unused portion for Double Your Money Back. So why delay? Delay may cost your hair.

HOME STUDY COURSE

Beginning, semi-advanced and advanced lessons in Oil Painting, Watercolor, etc. This is not a correspondence course — there are no lessons to execute and send in. Carefully planned instruction is prepared by famous artists. Besides this course, additional lessons are mailed bi-monthly exclusively to AAAA members.

CRITIC CLINIC

Artwork appraised and constructively criticized by competent, professional artists. (A nominal fee is charged for this service.)

"AMATEUR ARTIST" PUBLICATION

The official magazine of AAAA is published quarterly. This will interest any amateur artist with its exciting, informative articles, book reviews, creative art ideas, etc.

NEWSLETTER

A "newspaper" form letter mailed periodically to keep AAAA members abreast of the activities of individuals and chapters. This "Newsletter" brings about a close association among people interested in amateur art.

COMPETITIONS

AAAA members are supervised in conducting local amateur art exhibits and competitions. National competitions are fostered by AAAA.

SCHOLARSHIP PROGRAM

Competitions open only to AAAA members for scholarships in the foremost art and correspondence schools.

ART INFORMATION SERVICE

Questions answered relative to art procedures, art schools, job procurement, etc.

CERTIFICATE

A handsome certificate of identification in AAAA, is given upon registration.

WHAT IS AAAA?

The Amateur Artists Association of America is a service organization, dedicated to the encouragement and advancement of amateur art. Its basic purpose is that of helping the amateur artist through valuable art assistance, instruction, an exchange of ideas, inspiring association with other artists, etc.

AAAA was founded in 1950 as a non-profit Association, and has since grown to become the world's largest amateur artist organization. Its present membership includes chapters in all forty-eight States, and members in Canada, Saudi Arabia, Mexico, Hawaii, South America, Alaska and all parts of the world.

Listed among the sponsors of AAAA are many famous artists, teachers, art school directors, museum directors, art material manufacturers, art dealers and other prominent men and women closely related to the art field.
